Hiring Team

Re: **Position**

Dear Hiring Team,

I am excited to apply for this opportunity because it aligns with my background in computer science education, mentoring, and applied AI/ML work. I have taught software development and cloud fundamentals, and I enjoy connecting technical depth with clear communication in learning environments.

Across my roles, I have worked at the intersection of engineering execution and knowledge transfer: shipping software, mentoring teams, and teaching technical concepts to different audiences. I would bring that same combination of ownership, collaboration, and adaptability to your team.

Thank you for your time and consideration. I would welcome the chance to discuss how I can contribute to Hiring Team.

Sincerely,

Miguel Angel Bravo Vidales
