Hiring Team

Re: **Position**

Dear Hiring Team,

I am excited to apply for this opportunity because it aligns with my background as an AI-focused software engineer. I have built and delivered production tools and platforms using Python, Ruby on Rails, React, and cloud services, with a strong emphasis on practical impact.

Across my roles, I have worked at the intersection of engineering execution and knowledge transfer: shipping software, mentoring teams, and teaching technical concepts to different audiences. I would bring that same combination of ownership, collaboration, and adaptability to your team.

Thank you for your time and consideration. I would welcome the chance to discuss how I can contribute to Hiring Team.

Sincerely,

Miguel Angel Bravo Vidales
