Summary

Computer science M.S. with teaching and mentoring experience, focused on AI/ML education and applied research-to-practice software projects.

Education

Tecnológico de Monterrey (ITESM)

M.S. in Computer Science (Focus on Artificial Intelligence and Machine Learning)

Monterrey, NL

Dec 2020

Tecnológico de Monterrey (ITESM)

B.S. in Information Technology and Communications

San Luis Potosí, SLP

Dec 2013

Experience

Tecnológico de Monterrey (ITESM)

High School Professor

San Luis Potosí, SLP

August 2025 – Present

- Instructed high school students in software development, covering programming fundamentals, logic building, and practical application design.

Encora, Inc.

Remote

AWS re/Start Instructor

February 2025 – June 2025

- Delivered comprehensive cloud computing training to a cohort of students, covering core AWS services, networking, security, and Linux/Python fundamentals.
- Guided students through practical lab exercises to prepare them for the AWS Certified Cloud Practitioner exam and transition into entry-level cloud computing roles.

Spark Tech Staff

January 2025 – Present

- Mentored new hires in data structures and algorithms through the internal Algorithm School Program, accelerating their readiness for client matching.

Full Stack Developer

January 2021 – 2024

- Built AI-powered development tools using Python, LangChain, Streamlit, and the OpenAI API, automating the generation of React and React Native (Expo) template applications.
- Maintained and optimized a legacy travel loyalty application (Arrivia), implementing resource monitoring via Azure AppInsights to identify and resolve high-consumption tasks.
- Developed robust data processing pipelines for a telehealth platform (MDLive), processing patient records and building doctor incentive systems using Ruby on Rails, Redis, and RabbitMQ.

DEV.f

Remote

Professor of Web Development

August 2021 – March 2024

- Taught comprehensive 6-month full-stack web development bootcamps covering HTML, CSS, JavaScript, Node.js, and React.
- Guided students with no prior software development background through practical, hands-on projects to build industry-ready portfolios.

Continental

San Luis Potosí, SLP

Full Stack Developer (Freelancer)

January 2014 – December 2017

- Developed and maintained the Android application for a conveyor administration platform.

- Built a desktop integration service using Ruby to connect new interfaces with existing legacy applications.

Winero

San Luis Potosí, SLP

Co-founder, CTO & Full Stack Developer

July 2013 – December 2016

- Co-founded a loyalty programs platform, architecting the data structures, backend system (Ruby on Rails, PostgreSQL), and performance analytics dashboard.

Leadership & Activities

Tech Communities & Events

Mexico

Speaker, Mentor & Co-founder

2013 – Present

- Participated in over 20 Hackathons (winning 2 and mentoring 10), including Startup Weekend, AngelHack, and Talent Hackathon.
- Delivered 15+ talks and workshops on software engineering and AI at major tech events such as TalentLand, Nerdearla, and NerdyTalks.
- Co-founded “Comunidad Código,” a local developers’ association, and actively contributed to the Tuna Valley initiative.

Skills, Certifications & Interests

Certifications: AWS Solutions Architect (2025), Azure AI Engineer Associate (AI-102) (2024, Renewed 2025)

Technical Skills: Ruby, Python, JavaScript, Java, SQL, Ruby on Rails, Node.js, React, TensorFlow, Docker, AWS, Azure, Git, LangChain, Redis, RabbitMQ

Languages: Spanish (Native), English (Fluent)
